Three of these must be from one examination sitting. An applicant who will be turning 23 in his/her first year of registration shall be considered for Mature Age.

#### Foundation Programme

The Social Sciences and Humanities Foundation Programme is an entrance programme intended to provide a strong academic foundation to students who do not meet Faculty of Social Sciences and Humanities minimum entry requirements because they do not have sufficient Swedish rating points.

The SSHFP follows the same structure as mainstream modules, but its curriculum is extended over a longer period and there is additional academic support. SSHFP students must take one more year to complete their degree than mainstream students. These students must register for Academic Practices and Reasoning (APR) which is a value-addition course in their first year of registration. This course assists students in developing their academic skills towards their application.
