Dear Colleagues and Students

ANNOUNCING TWO MORE COVID-19 CASES: EAST LONDON CAMPUS

New Infections:

This morning the university received notification of another two Covid-19 positive employees, both from the East London campus. One works in the **Faculty of Law** and is currently recovering in hospital. The second case, **Ms Andiswa Makula**, is an Administrator in the **Faculty of Social Sciences and Humanities**.

We commend Ms Makula for voluntarily giving us consent to publish her details. She is in isolation.

As in previous cases, the usual health and safety protocols will be implemented, including identification of possible contacts. May the colleagues remain encouraged and assured of our support throughout their recovery journeys.

Recoveries:

Although the university is reporting 10 cases, as at today we only have two active cases. The other previously infected employees have recovered fully.

Let us endeavour to keep safe and stay healthy.

Sincerely

Tandi Mapukata
University Spokesperson
